DENISS, LLC Signs Agreement with Pennsylvania based Canary Labs, a global Production
Monitoring Software Developer

POWDER SPRINGS – DeNeal Industrial Sales & Services, LLC (DENISS, LLC) is pleased to introduce Canary Labs, a global Production Monitoring Software Developer from Martinsburg, PA as a principal. DENISS, LLC founder and CEO Tyrone DeNeal, Sr., said the signed sales representative agreement with Canary Labs will cover the Southeastern United States (non-exclusively).

Canary Labs was founded in 1985 with a focus to develop solutions from the end user's perspective. They have achieved more than 17,000 installations in 49 countries. Their clients represent private, public and government entities in all major industries.

Canary Labs is a premier provider of world-class process data historian software, visualization software and related services. The Process Data Historian software is used in applications ranging from 50 tags to over 25 million tags; the Logger provides connectivity to a wide variety of measurement devices via OPC (Object Linking and Embedding for Process Control) and Axiom visualization software an intuitive and easy to use data analysis client. It visually transforms your process data, allowing our clients to improve their processes, increase quality and enhance operational efficiency

DENNIS, LLC was founded November 2016 and specializes in helping principals and customers grow sales and improve profits utilizing the Six Sigma principles -Define, Measure, Analyze, Implement and Control.
