DENISS, LLC Signs Agreement with Turnix Electrical, LLC to represent

EDISON TRANSFORMER

POWDER SPRINGS – DeNeal Industrial Sales & Services, LLC (DENISS, LLC) is pleased to introduce EDISON TRANSFORMER, a product designed for energy efficiency and durability for industrial markets as a principal. DENISS, LLC founder and CEO Tyrone DeNeal, Sr., said DENISS signed a sales representative agreement with for the southeastern US.

EDISON TRANSFORMER, follows in the footsteps of the Master of Electricity, builds on the legacy of Thomas Alva Edison, a pioneer who revolutionized the world with his relentless pursuit of innovation. EDISON TRANSFORMER carries this spirit forward by designing high quality transformers that are the heart of modern electrical systems.

EDISON TRANSFORMER proudly carries the torch of pioneering achievement to North American from our cutting-edge manufacturing facility. EDISON TRANSFORMER Low Voltage Dry Type Transformers (LVDTs) are specifically engineered for the North American market.

EDISON TRANSFORMER equipped with the latest vacuum pressure impregnation technology. Their facility is staffed by highly trained professionals with over 20 years of experience in engineering and manufacturing transformers and other electrical equipment. The products are manufactured in facilities with ISO 9001, OSHA, and UL certifications, underscoring their adherence to quality standards.

DENNIS, LLC was founded in November 2016 and specializes in helping principals and customers grow sales and improve profits utilizing the Six Sigma principles -Define, Measure, Analyze, Implement and Control.
