DENISS, LLC Signs Agreement with Florida based Kenick, a Surge Protection Products
and Solutions company

POWDER SPRINGS – DeNeal Industrial Sales & Services, LLC (DENISS, LLC) is pleased to introduce KENICK, a company providing state-of-the-art surge protection and power quality technology for utilities as a principal. DENISS, LLC founder and CEO Tyrone DeNeal, Sr., said DENISS signed a sales representative agreement with KENICK for the United States.

KENICK, founded in 1989, is an engineering-based consulting firm providing surge protection products and solutions. KENICK supports over 110 electric utility clients and businesses across the US.

KENICK has former utility surge protection program managers on staff to support their existing clients and to help new utility clients design and grow successful surge protection programs. Their client list continues to grow and includes innovative teams at Investor-Owned Utilities (IOU), Cooperatives and Municipalities across the US.

KENICK creates custom residential and commercial protection programs along with providing world class training, development and customer escalation help. Expertise lies in guiding utilities and their customers through a process of protecting their property and equipment from transient surges.

DENNIS, LLC was founded in November 2016 and specializes in helping principals and customers grow sales and improve profits utilizing the Six Sigma principles -Define, Measure, Analyze, Implement and Control.
